3DISC purchases CoreWare

By AuntMinnie.com staff writers

December 20, 2011 -- Computed radiography (CR) manufacturer [3DISC Imaging](#) has acquired Korean digital radiography (DR) software provider CoreWare.

Founded in 2002, CoreWare offers image processing software for CR, DR, and PACS to customers throughout the U.S., Korea, and other Asian countries, according to 3DISC. Its software is featured in 3DISC's suite of x-ray imaging products for human and animal use.
